User Manual

Please note your phone is battery-embedded design with removable battery and battery cover. Unauthorized personnel are strictly prohibited from disassembling the phone. Make sure to use only the power adapter (5V 2A Output AC/DC) that came with PM90.

In case your phone does not work as expected, you are strongly recommended to restart it by pressing and holding the power button for at least 12 seconds until the startup screen appears. If your phone has encountered a serious error and cannot be recovered, you should reset your phone to factory settings by using the menu, either “Backup & Reset”, or “Factory Reset”. For more details, please refer to “Factory data reset” section.

> **Note:** Please be cautious while performing the factory data reset. Because this will erase personalized settings and data saved in your phone, such as SMS, Contacts, Music, etc.

Screenshots in this manual may different compare with latest Android App version

Major Parts

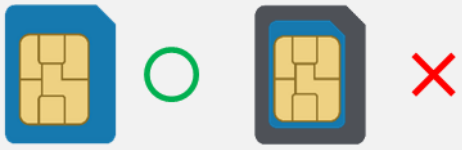
Note 1: PM90 only supports the micro SIM cards. Do not insert a size modified card with SIM adapter. Size modified card is thicker than the standard Nano SIM card and may damage the card slot



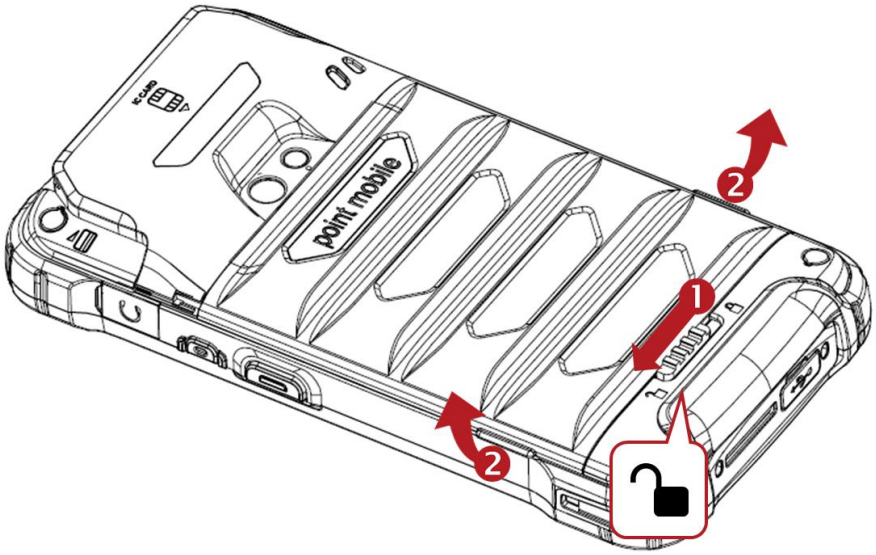
Note 2: PM90 supports up to 32GB microSD card

©2023 Point Mobile Co., Ltd. All rights reserved

Setup PM90

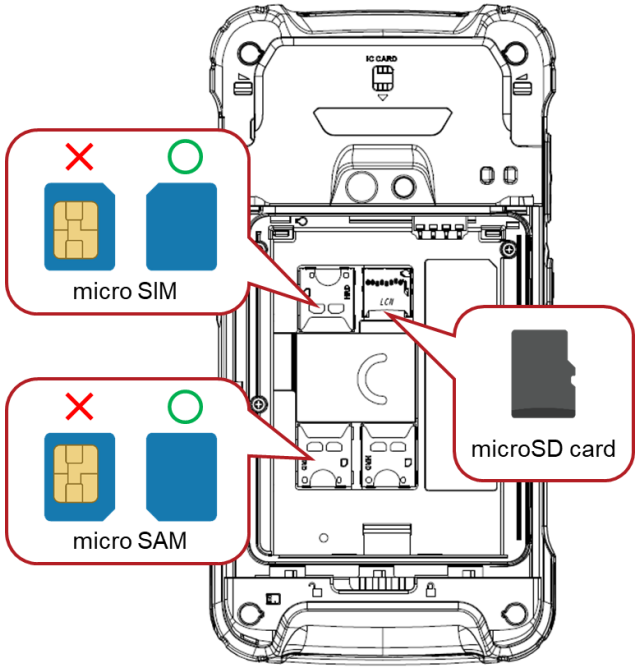
Remove the Battery Cover

1. Slide **Battery Cover Lock** to the **Unlock** position
2. Pull up the **Battery Cover** from bottom side area



Install micro SIM card, micro SAM card and microSD card

1. Insert the micro SIM card, micro SAM card and microSD card into each slot (Gold contact should face down)



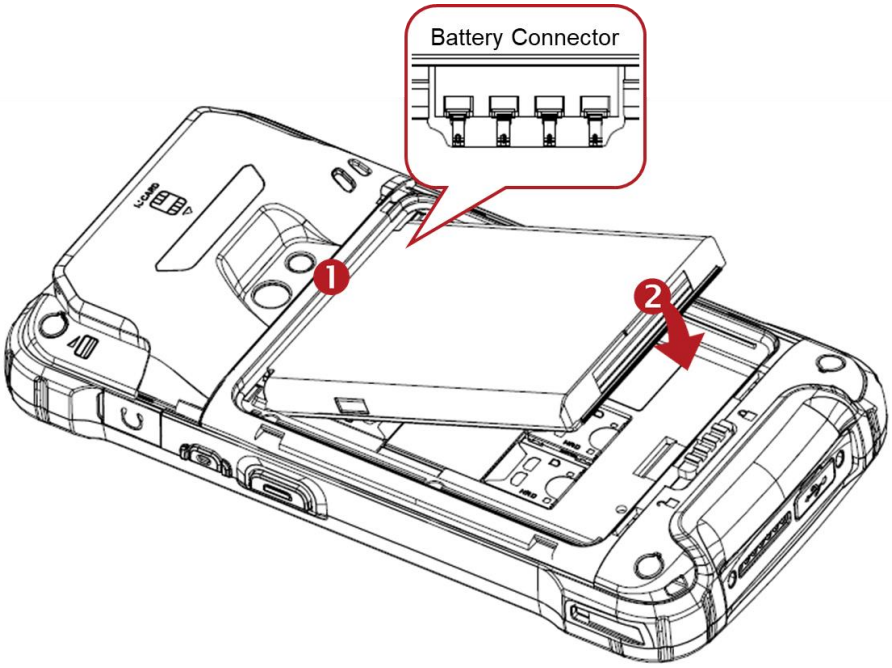
2. To remove the card, gently slide it out of the slot.

©2023 Point Mobile Co., Ltd. All rights reserved

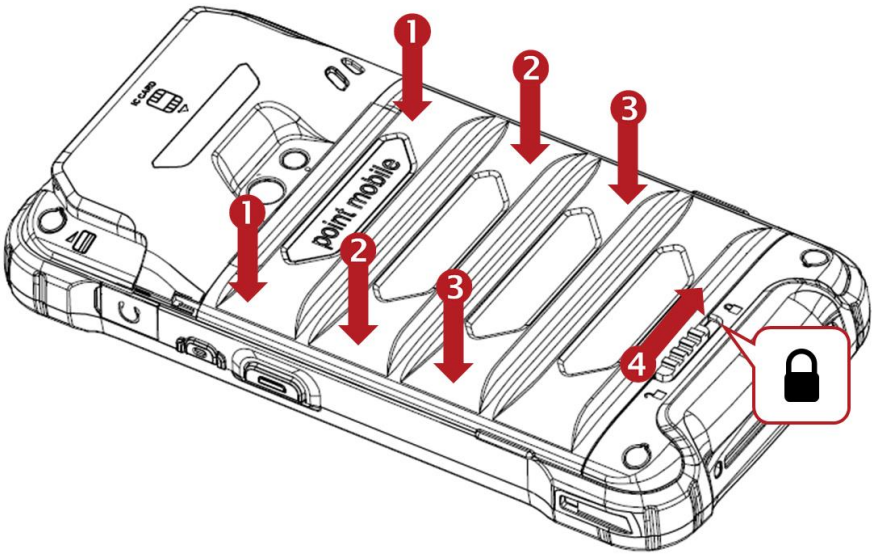
Setup PM90

Insert the Battery

1. Insert Battery from the top first, and then put in the bottom. Make sure battery contact **Battery Connector**



2. Insert the Battery Cover from the top area first and then put in bottom area. Press Battery Cover with both hand and Make sure **Battery Cover Lock** is **Lock** position



©2023 Point Mobile Co., Ltd. All rights reserved

Turn On/Off PM90

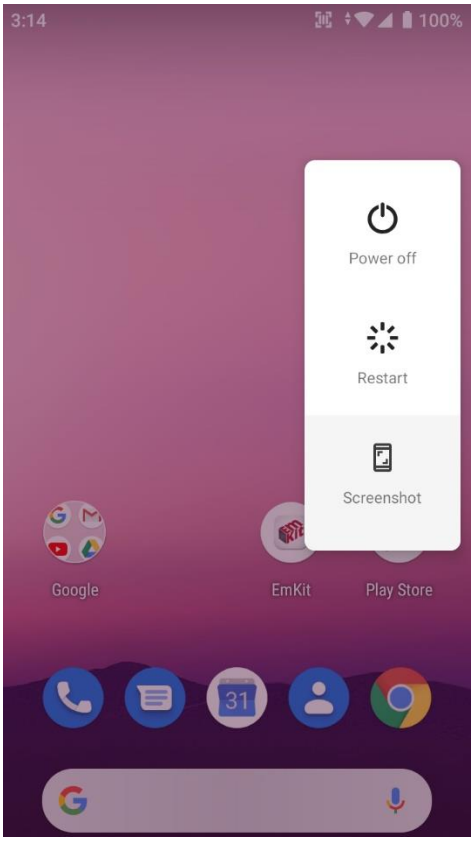
Turn On

1. Press and hold the **Power Key** for a few seconds
2. When PM90 enter to the boot mode, it will display “SMART BEYOND RUGGED” logo
3. Release the Power Key and wait until PM90 finish booting

> **Note:** If you cannot turn on your PM90, please try below steps
>
> - To turn on PM90, battery needs to be charged certain level. Please charge first
> - Press and hold the “Power key” for over 12 seconds to force reboot
> - Press and release the Reset Hole and then turn on PM90 again

Turn Off

1. Press and hold the “Power Key” until you see the power menu



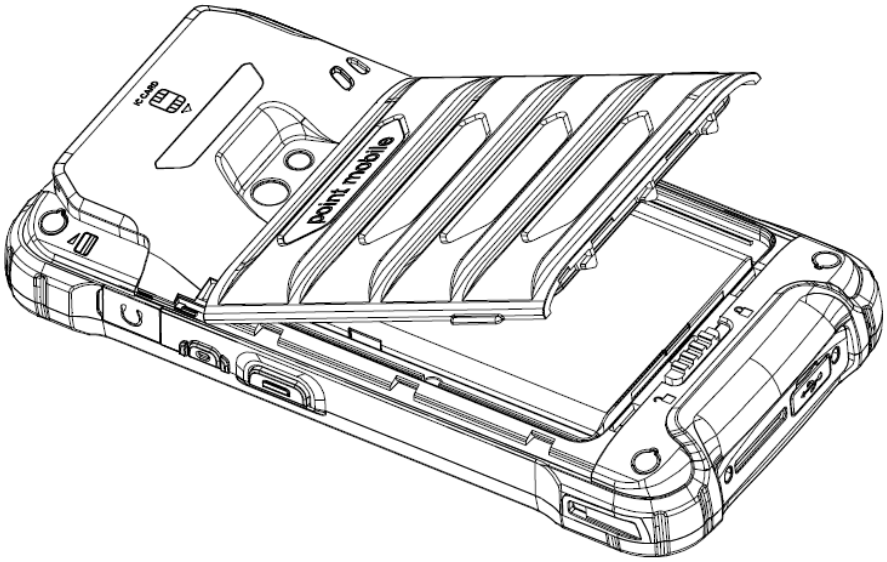
2. Touch **Power Off**

©2023 Point Mobile Co., Ltd. All rights reserved

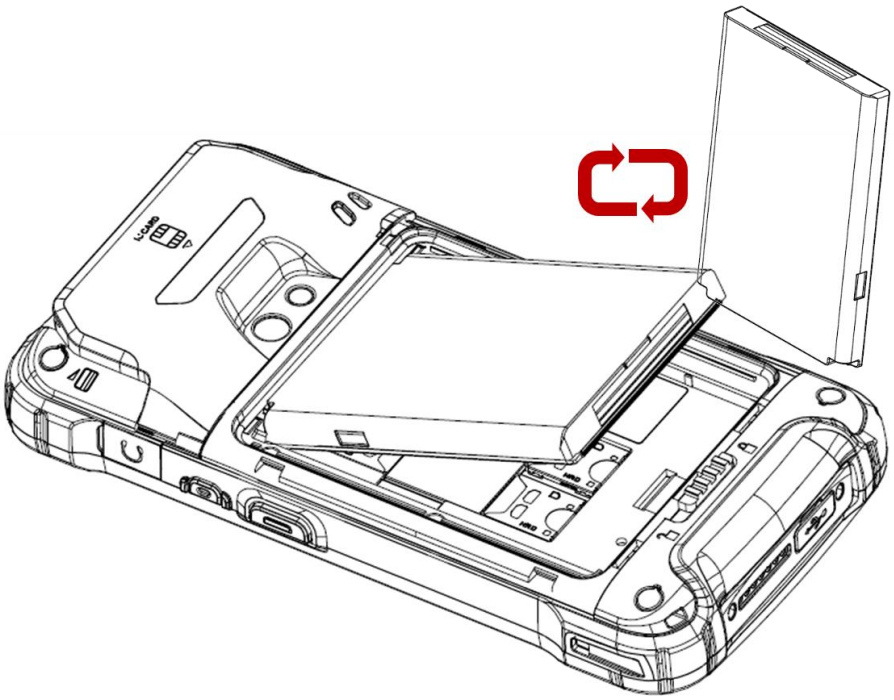
Hot swap the Battery

When Battery level is low, you can replace the battery without turning off and on the PM90

1. Remove Battery Cover



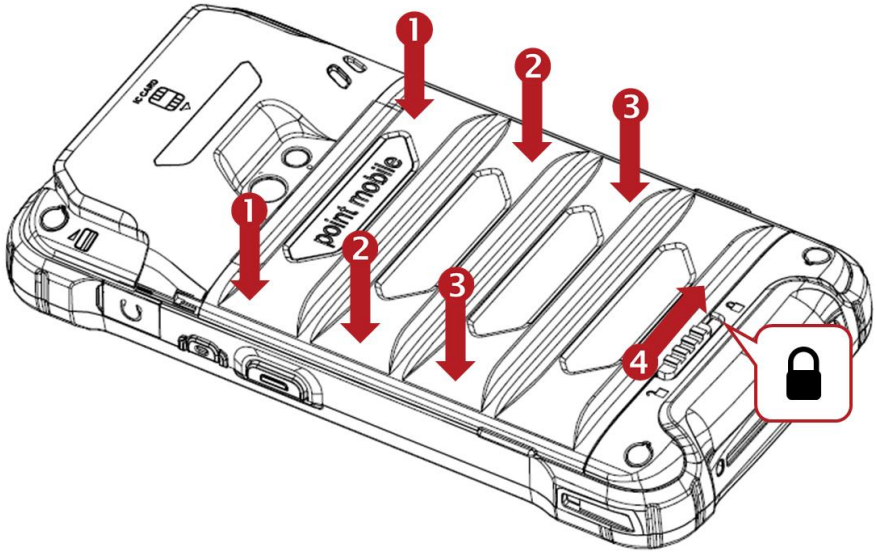
2. Replace the Battery



©2023 Point Mobile Co., Ltd. All rights reserved

Hot swap the Battery

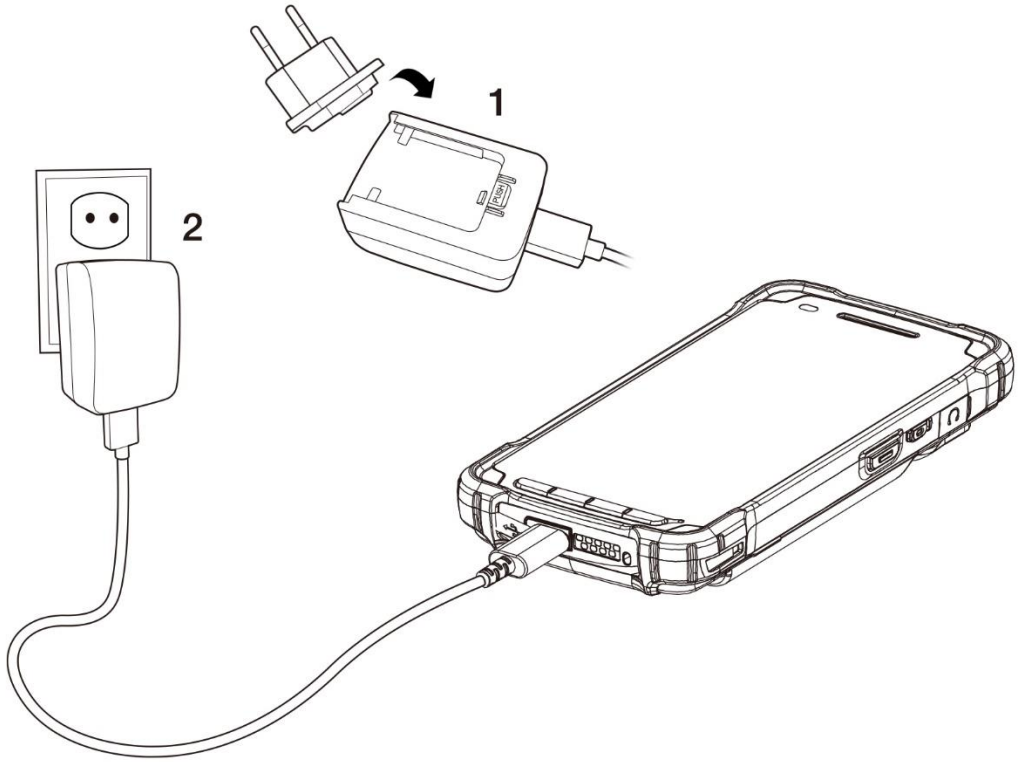
3. Close the Battery Cover firmly. Make sure **Battery Cover Lock** is **Lock** position

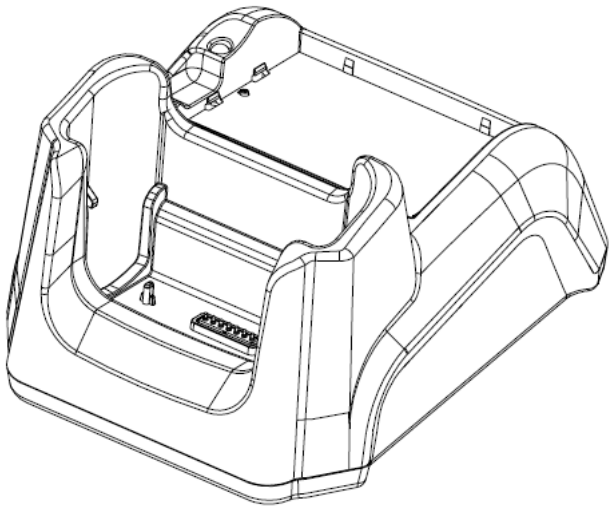


©2023 Point Mobile Co., Ltd. All rights reserved

Charge PM90

1. Assemble the country code and AC adapter first. Connect USB cable to assembled AC adapter
2. Connect another side, USB type C connector to the PM90 and apply the power from wall socket





You can also charge the PM90 with cradle (optional accessory)

©2023 Point Mobile Co., Ltd. All rights reserved

Charge PM90

3. LED indicator will display charging status

Steady Red	Battery is charging or Battery level is low
Blinking Red	Battery level is critical low
Steady Green	Battery is fully charged

Battery specification

Standard Battery	2,900mAh 3.85V
Extended Battery	5,800mAh 3.85V
Backup Battery	60mAh 3.7V
Charging time	Standard Battery : About 4 hours Extend Battery : About 6 hours

Note: Always use an original charger and cable from the Point Mobile. Other chargers and cables may damage PM90.
In addition, make sure connector, charger, cables are not wet

Safety and Legal Info

Battery Safety Information

Follow the battery safety guidelines for safe usage, storage, and disposal of Li-ion batteries. Improper battery use may result in a fire, explosion, or other critical hazards.

Battery Safety Guidelines

- Use only Point Mobile approved batteries and charging accessories. Other batteries and chargers may damage the device or result in a fire, leakage, or other hazards.
- Do not expose the battery to excessive heat or cold.
- Do not use or store the battery in or near areas that might get very hot, such as in a parked vehicle, near a heat duct or close to other heat sources.
- Do not allow objects that may cause a short circuit, such as metal objects, corrosive substances, or liquids like water, to contact the battery.
- Do not disassemble, crush, bend, shred, press, or other actions that may damage or deform the battery.
- Do not use or replace the battery on the go or from a high location. Dropping may result in an explosion or fire.
- Do not put any labels, stickers, tags, etc. on the device or battery. Performance of the device or battery, such as sealing, drop, or tumble, could be affected.
- Close supervision is necessary when used near children to avoid the risk of injury.
- If battery leakage is observed, avoid any contact with the skin or eyes and properly dispose of the battery. If contact has been made, wash the affected area with water for 15 minutes and seek medical advice.
- If you notice any type of damage to the battery, such as swelling, dents, and leaks, stop using it immediately and contact Point Mobile.

Battery Charging Guidelines

- Charge the battery in a clean, cool, dry, and ventilated environment.
- Separate the charger from the battery as soon as possible when the battery is fully charged.
- Battery performance can degrade due to the stress of daily charging and discharging. Batteries typically need to be replaced after 300 to 500 charging cycles (full charge-discharge cycles) or when the battery capacity has been reduced to 70 ~ 80% of its original capacity. The actual number of charging cycles varies based on usage patterns, temperature, age, and other factors.

©2023 Point Mobile Co., Ltd. All rights reserved

Safety and Legal Info

Battery Storage / Disposal Guidelines

- Store the batteries in a clean, dry and ventilated environment within ambient temperature ranges of 20±5℃.
- For safety regulations, batteries are charged to below 20~30% of full capacity during production.
- When not using batteries for a long period, charge the battery for 30 minutes to 1 hour at least once every 6 months to prevent full discharge and keep the performance.
- Batteries should be stored separately when storing for long periods. Disconnect from any device, charger, or cradle.
- Dispose of used batteries promptly according to local disposal regulations.
- Do not dispose of the battery in fire. It may cause explosion.

Notice: The battery is consumable. Point Mobile provides a warranty for the battery for 12 months after purchase.

If you suspect the battery swelling, change the battery immediately and contact Point Mobile.

©2023 Point Mobile Co., Ltd. All rights reserved

Safety and Legal Info

Battery Warning

CAUTION

IF MISUSED OR MISTREATED THE BATTERY MAY PRESENT A RISK OF FIRE OR CHEMICAL BURN.

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.

DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

ATTENTION

Un remplacement inadéquat de la batterie ou une utilisation incompatible de l'appareil peut présenter des risques de brulures, d'incendie, d'explosion ou d'autres dangers.

Jetez les piles en lithium-ion conformément aux régulations locales.

Body-worn Operation

This device was tested for typical bodyworn operations with the Front & back of the device kept 0.59 inches (1.5cm) between the user's body and the Front & back of the device. To comply with FCC RF exposure requirements, a minimum separation distance of 0.59 inches (1.5cm) must be maintained between the user's body and the Front & back of the device. Any beltclips, holsters, and similar accessories containing metallic components may not be used. Body-worn accessories that cannot maintain 0.59 inches (1.5cm) separation distance between the user's body and the Front & back of the device, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided.

©2023 Point Mobile Co., Ltd. All rights reserved

Safety and Legal Info

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution : Any changes or modifications to this device not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

IC (Industry Canada) Warning

This device complies with Industry Canada license-exempt RSS standard(s).Operation is subject to the following two conditions: (1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le present appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisee aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioelectrique subi, meme si lebrouillage est susceptible d'en compromettre le fonctionnement

This device is restricted to indoor use only within the 5.15 ~ 5.35GHz Band.

Cet appareil est restreint a l'utilisation a l'interieur seulement dans la bande 5.15 ~ 5.35GHz.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter unless authorized to do so by the FCC/IC.

Cet equipement est conforme aux limites d'exposition aux radiations FCC / IC definies pour un environnement non controle. Cet emetteur ne doit pas etre colocalise ou fonctionner en conjonction avec une autre antenne ou un autre emetteur, a moins d'etre autorise a le faire par le FCC / IC

Laser Warning

- LASER LIGHT. DO NOT STARE INTO BEAM. CLASS 2 LASER PRODUCT. 1.0 mW MAX OUTPUT 650 nm.

(LUMIERE LASER, NE PAS REGARDER DIRECTEMENT DANS LE FAISCEAU, PRODUIT LASER DE CLASSE 2, SORTIE MAX. DE 1,0 MW: 650 nm.)

- Complies With 21CFR 1040.10 and 1040.11 except for deviations pursuant to Laser Notice No.50 dated June 24 2007. (Cet appareil a ete teste et reconnu conforme aux normes 21 CFR 1040.10 et 1040.11sauf pour les derogations en accord avec l'avis de conformite sur les lasers No. 50, en date du 24 juin 2007.)

E-label

Users can access to the product certificate information in Settings → About phone → Certificates.

WCDMA/LTE feature is optional. Some product options only include WLAN feature.

FCC ID : V2X-PM90G (PHONE), V2X-PM90W (WLAN)

IC ID : 10664A-PM90G (PHONE), 10664A-PM90W (WLAN)

KC 사용 안전정보

본 제품의 전자파흡수율은 과학기술정보통신부의「전자파 인체보호기준」을 만족합니다.

본 제품은 국립전파연구원의「전자파흡수율 측정기준」에 따라 최대 출력 조건에서 귀에 근접하여 시험되었으며, 최대 전자파 흡수율 측정값은 다음과 같습니다.

Model 명	PM90
머리 전자파흡수율	0.971 W/kg

※ 전자파흡수율 (SAR : Specific Absorption Rate)은 휴대전화를 사용할 때 인체에 흡수될 수 있는 전자파의 양으로 우리나라는 국제권고기준인 2 W/kg 보다 엄격한 1.6 W/kg 기준을 적용하고 있습니다.

※ 전자파흡수율에 대한 자세한 정보는 국립전파연구원 (www.rra.go.kr) 또는 제조사 홈페이지에서 확인할 수 있습니다.

※ 본 기기는 인체로부터 15 mm 이상 이격 하여 사용하는 것을 권장합니다

적합성 평가	내용
기자재의 명칭	LTE 이동통신용 무선설비의 기기(육상이동국의 송수신장치)
모델명	PM90
상호명	주식회사 포인트모바일
제조자/제조국가	주식회사 포인트모바일 / 중국
제조년월	2019
